to following items of interest concerning whaling and the fleet. ple Arctic in 1871, will work a new experience to us in the way acids, I es indic; Dowsett & Co., 100 cs coal oil; H McInty re importation in 1872, as but 2 Arctic whalers will arrive this 100 sets burn, 100 do nots, 200 qr seks flour, 20 cs bread, on be caught, unless the extreme views of holders may lead the importation of Scal oil to be caught this Spring, and a napply of Cotton Seed oil, which shall make up for our large their construction. I bester and fittings complete; Order, 50 bags potatoes. It bags bran. we have fitted and sent to the Arctic 6 ships, and I from | mew London, of which I were formerly sperm whalers. Of one 11 whalers fitted and which sailed for the Arctic previous the news of the loss, 5 were sperm whalers; 3 sperm ngulers have been ordered to the Arctic from sperm whale the unds. The Faraway, owned in Sydney, N. S. W., has illed from Hon lufa under command of Capt. Herendeen, emerly of the Mary, of Edgartown, for the Arctic. The et of 1872 will comprise 26 vesseis, of which only il Ameri-as and 1 Hawalian were there in 1871. San Francisco will

em almost a fatality, they having had to pay for every Arc-whaler that has heretofore fitted from that port. There has been a large reduction in our small whaling fleet, and of the 34 vessels now in port, half are for sale, and some arrive will probably change hands before being fitted again, and present prices be assured for three years to come, probmy nearly every vessel would go to sea, but with the u ty in prices, partly from substitutes, and low prices of em, only good prices can be hoped for, and not counted up-there were no whalers in the Ochotsk Sea or on Kodiac pst season. The Arctic fleet had done well up to the time of eir having been lost; whales were plenty, and the prospect ed for a large average. The oil abandoned with the ships was about 12,000 barrels and about 100,000 pounds of bone. the natives were at work saving the bone when last seen, and le expected that by trading with them that at least 50,000 bunds may be got of them within 3 years. It is not improb-the chie that some of the ships may be found near where abangened, but not at a time nor in such condition as to make it an bject to save them. The salvers would hardly expect to save ore than half to themselves of the property recovered, and North half would offer better results.

bably have no whalers there, underwriters in San Francisco

Having a large would fit him when he should become a man, and offer on deck, Captain Fuller was obliged to use great caution that he should continue to wear them all the days of

> These words were intended to give the impression that the Hawaiian of that date had so progressed as to have outgrown the Constitution of 1852, and that the intention was to enlarge the provisions of the new Compact, so as to allow liberty for both past and future political growth.

C. C. H. then goes on to say : "His Majesty is desirous of referring back the Constitution to the parties that made it, -to the constituting power, [the italics are not ours] to meet the delegates of the people, freely elected, and the Nobles, on equal terms, in a frank and confidential mannerto talk with them face to face, and to see whether any changes should be made in the fundamental laws of the Kingdom for the common good-believing that We clip the following from the Alfa's City Trade Report of He has no interests distinct from the interests of all His people-nay, believing most carnestly that His smallest interest is dependent on their well-being, and being sure that his whole happiness is wrapped in theirs. In this Convention, if the people accept His invitation, they will be represented by twentyseven delegates, being thus, if they band together, an overwhelming majority, inasmuch as the number of on extra at agent's rates. We quote standard brands of pregon extra at \$6606 375, and local brands as follows: Suestine at \$5 50005 75, and extra at \$6 50006 75, in sacks per can be adopted without their consent. There is no concealed thought in this Proclamation-it means just what it says, and no more. There is no desire things-no craving for power, no thought of proposdelegates shall meet the King in the spirit of confireasonable opposition, though no good will come of | penetrates. the Convention, most certainly no harm can come of seeks to cause them to value-that Government as a economized into steam, whilst the flume system. social compact, of which He is the head-and that | precious as it is, must-well-Job's comforters are that compact has for its only end and aim the com- nowhere popular, so I'll leave that speculation mon good. * * * He invites the people to listen alone to Him with the same respect that He will listen to them or their delegates, and requires nothing more. * * * If the Convention is willing to adopt an improved Constitution, it is well; if not, the Constitution stands as it is.'

doubt the evidence of their senses, after reading the foregoing, but this is just the identical smooth, seductive, ingenuous sounding language used by our Alcibiades in pre-Convention times.

The pleasant idea of meeting the delegates " on equal terms in a frank and confidential manner," loses its force, when taken in connection with the remarks of the Bon. C. R. Bishop, before quoted by us, to the effect that the proposed amendments had not been published, and "only the King and Ministers knew anything about what was to be done, and the way the matter had been managed was not in accordance with a spirit of liberality; information had been withheld and the people

Its losses, in proportion to the number of the insured and the amount of insurance, have been remarkably few and light To every person seeking mutual insurance this fact is very The cost of the Insurance depends upon the vitality of the vitality is the low ratio of claims in the past. Ratio of losses on new business of 1870, not one dollar on a

The Prompt Commissioners of the New York Life Insurance Department thus report of the

Security: We now come to a brilliant, onward, approved embodiment of American Life Insurance—the Security Life Insurance Com-pany of New York. A politician would say, the Security is the people's choice. It has certainly strong popular endorse-ment. By the Atlantic, the Mississippi, and the Pacific, the nds speak it fair. The Security greatest increase of annual business in 1870 over 1869 of all the life companies of the United States. When this is considered in connection with the past progress of the office, its future rank on the life roll is a subject of no difficult conjecture. Even with the additions of 1870 there is no disproportional outgrowth. It has been regularly built up to the present pro-portion, not suddenly projected forward. It has passed ahead of other companies by the due operation and momentum of its
